

## Custom Parts

If you need a special  
O-Ring, Lip Seal,  
Gasket,  
Rubber-to-Metal  
or other custom shape,  
we'll design and  
manufacture just what your  
situation requires.

Our In-House Tooling facility  
allows us to produce molds quickly  
and economically ...  
so a custom solution can be  
delivered almost as quickly as one  
of our many standard solutions.

We can produce a mold directly to your specifications and drawings.  
Or, our engineers can work with you to learn your specific needs and then propose  
a number of alternative solutions from which to choose.

Most likely, one of our many compounds will be exactly what you need.  
But if it isn't, we'll develop a compound especially for you.
